AN EMERGENCY IS ANY UNEXPECTED OR LIFE THREATENING ACCIDENT OR ILLNESS, WHICH ARISES SUDDENLY AND REQUIRES IMMEDIATE MEDICAL ATTENTION.

Outside Canada Emergency Travel Benefits are automatically effective while you are out of the country. Your plan covers you for the reasonable and customary charges in excess of the amount paid by your provincial government health care coverage for emergency services only, which include:

- emergency travel assistance
- medical evacuation
- medical care, including surgery and semi-private hospital accommodation (must be a public general active treatment hospital)
- dental pain relief
- other expenses

This coverage is effective from the time you cross the Canadian border (or the time your plane takes off) until you reach the Canadian border again (or when your plane lands).

If you have an emergency while outside Canada, contact the travel assistance service medical advisor within 24 hours. The number is listed on the back of this brochure and on the inside of your ASEBP ID card.

Remember that staying healthy while travelling is a matter of preparation and being attentive to cleanliness, insects, food, water and security. Bon voyage!

Family coverage

All eligible dependants are covered by ASEBP Extended Health Care and have Outside Canada Emergency Travel Benefits. If one of your dependants travels outside Canada without you, make sure he or she has a copy of your ASEBP ID card and this brochure.

If you have Extended Health Care coverage with ASEBP, you do not need to buy extra emergency travel coverage. However, cancellation and baggage insurance are not included. It is recommended that you purchase emergency travel coverage for any dependants not covered under your plan.
